Forecast for Sunday 19 Dec 2021

Weather: Dry with clear skies on the tops. Summit temperatures a few degrees colder than previous days, but still relatively mild for the time of year. A colder day in the glens, with some low cloud or fog, this most likely across Argyll and the Trossachs, but some patches likely elsewhere.

Chance of cloud free mountain/hill tops above 800m: 100%, but some low cloud in the glens, mainly in the south.

Visibility: Excellent on the summits. Poor in any fog in the glens, often down to a few hundred meters or less. Fog tops likely to be around 400m.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
A chance of cloud inversions, most likely in the south of the area.

Forecast for Monday 20 Dec 2021
Weather: Remaining dry. A colder day on the tops. Munro tops are likely to be above the cloud once again, particularly in the morning, but cloud tops expected to rise through the day, occasionally engulfing the summits at times, mainly late afternoon and evening.

Maximum wind: Light and variable.

Chance of cloud free mountain/hill tops above 800m: 70-80% at munro level, 20-30% at lower levels.

Visibility: Excellent above the cloud, but occasionally poor below around 700m in cloud, this may extend above the summits at times, most likely in the afternoon and evening.

Temperature: **Glens:** Plus 2 or 3 Celsius
At 800m: plus 1 or 2 Celsius
Freezing level: Generally above the summits, but sub-zero air below around 500-600m.
